Attachment #7 consists of Examiner's comments.

EXAMINER'S COMMENTS

Applicants' remarks and amendment filed November 11, 2010 have been received and entered into the application.

In light of such remarks, as well as those which follow, claims 1, 2-13, 16-18 and 30 are deemed in condition for allowance.

The Examiner only wishes to buttress Applicants' remarks regarding the propriety of the rejection of the claims under 35 U.S.C. § 103, with respect to those references which are applicable. It is further believed that this rejection is not sustainable because the Examiner has made a determination that "[t]his radiation treatment to the block copolymers would (inherently) result in reducing the molecular weight of the polymer, (Office action dated August 12, 2010 at the sentence bridging pages 9-10.

Upon further consideration, this logic is not deemed tenable because for something to be inherent, it must necessarily be so, or occur. Here, it was advanced that the reduction of molecular weight would have been obvious. Obviousness, however, is not a necessity, but rather a probability. Thus, it is not lawful or logical to conclude that someone which would have been obvious would also have been inherent.

Accordingly, the Examiner further concurs with Applicants that the rejection under 35 U.S.C. § 103 is improper and should be withdrawn.

For the reasons set forth by Applicants, all other rejections/objections set forth in the Office action dated August 12, 2010 are deemed to be overcome and thus are withdrawn.

Restriction Requirement

Insofar as the product claims are deemed allowable for the reasons pointed to above, the restriction requirement of record is hereby withdrawn and the presently pending method claims, claims 15 and 19-29, are hereby found allowable and are further hereby rejoined to the allowable product claims, (see the Office action dated August 31, 2006 at page 4).

Allowable Claims

Accordingly, all claims pending, i.e. claims 1, 3-13 and 15-30, are in condition for allowance.

Copies of Form PTO-1449 filed 5/12/2010

Copies of form PTO-1449 filed May 12, 2010 have been attached hereto because certain references do not have a date. The forms have been newly marked-up appropriately and are thus provided to Applicants.

No further action by Applicants is deemed necessary.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raymond J. Henley III whose telephone number is 571-272-0575. The examiner can normally be reached on M-F, 8:30 am to 4:00 pm Eastern Time.
